

Respiratory Testing Services

Transforming how diagnostic healthcare and wellness are delivered to senior living communities

Seasonal acute respiratory tract infections need fast and accurate results.

Respiratory illnesses often share the same symptoms and can require multiple tests. Our single PCR test detects multiple respiratory infections including COVID-19, Flu, and RSV. A single swab for the appropriate treatment.

COVID-19

Influenza A/B

Respiratory Syncytial Virus (RSV)

It's Flu Season

Now Offering a Single Test for COVID-19, Flu, and RSV
